	Illuminated (Dusk until midnight)		Rope edge skins Tower access No political

This outstanding site is situated on one of Townsville's main roads and faces traffic heading south out of the city's central business district.

It lies directly ahead of oncoming traffic as they approach the top of the Saunders Street overpass and is completely unobscured.

The site is mounted on a single pole and illuminated to ensure visibility to a large number of people in one of Queensland's largest regional centres.

Nearby: Townsville Central Business District.
