This excellent site is on the left-hand side of the road at the junction of two main exits from the Townsville Central Business District. It is adjacent to the new North Queensland Stadium currently under construction, due to open in 2020. The sign faces traffic leaving the city area by Stanley Street or Denham Street for the Bruce Highway or southern suburbs. The site is mounted on a single pole and illuminated to ensure visibility to a large number of people in one of Queensland's largest regional centres.

Located directly opposite the new Townsville Stadium (opened February 2020)

Restrictions: No political, religious advertising; Tower access required
