

# goaCLICK

goaCLICK was developed by our signage team in conjunction with goa's IT professionals to provide a simple and powerful solution to digital content management. Our aim was to develop a solution which was superior in functionality, reliability and most importantly simpler to use than the generic software commonly supplied with LED screens.

goaCLICK is designed to grow with your business. It utilises cloud based software to give you the freedom of virtually unlimited scheduling and expansion so your LED screens reach their maximum potential. For the monthly subscription cost of a mobile phone plan, goaCLICK software enables you to control your LED screen from anywhere in the world with an internet connection in a fraction of the time.

## **goaCLICK Benefits and Capabilities:**

### **Artwork and Scheduling:**

- Cloud based software with easy uploads and storage
- Arrange files by user defined categories – location, screen size product or campaign
- Drag and drop functionality to create or edit playlists
- Default playlists for when there is a break in scheduling
- Push targeted messages to one, or all of your networked screens simultaneously
- Available via all internet connected devices anywhere in the world

### **Installation and Maintenance:**

- Installation includes a secure modem
- 4G connectivity
- Firewall for privacy and security
- 24hr screen status display
- Default screen brightness secured to comply with government regulations
- goaCLICK Support

You will have access to a dedicated support team to check your screen status daily, handle your 4g connection and host your cloud storage. goaCLICK support will endeavor to respond to all IT issues within 24 hours.

To discuss how you can access goaCLICK and make your LED screens work harder and smarter for your business, contact goaSIGNAGE today.
